#Test Case	Description	User Acceptance Criteria Covered	Precondition	Expected Result	Actual Result	Pass/Fail
1	Bookmark page	25	User is logged in and on the correct page for: bookma	The system perf	The system performs the action: bookmark page.	Pass
2	Read now	18	User is logged in and on the correct page for: read nov	The system perf	The system performs the action: read now.	Pass
3	Go to desired page	26	User is logged in and on the correct page for: go to de	The system perf	The system performs the action: go to desired page.	Pass
4	Change reading mode	51	User is logged in and on the correct page for: change	The system perf	The system performs the action: change reading mode.	Pass
5	Play audio book	24	User is logged in and on the correct page for: play auc	The system perf	The system performs the action: play audio book.	Pass
6	Dictionary meaning right word	27	User is logged in and on the correct page for: dictiona	The system perf	The system performs the action: dictionary meaning right word.	Pass
7	Dictionary meaning wrong word	27	User is logged in and on the correct page for: dictiona	The system perf	The system performs the action: dictionary meaning wrong word.	Pass
8	Chatbox	28	User is logged in and on the correct page for: chatbox	The system perf	No action	Fail
9	Image generation	29	User is logged in and on the correct page for: image g	The system perf	No action	Fail
10	Search for book (Analytics)	32	User is logged in and on the correct page for: search f	The system perf	The system performs the action: search for book (analytics).	Pass
11	User login with valid credentials	4	User is logged in and on the correct page for: user log	The system perf	The system performs the action: user login with valid credentials.	Pass
12	User login with invalid credentials	5	User is logged in and on the correct page for: user log	The system perf	The system performs the action: user login with invalid credentials.	Pass
13	Register	1,2,3	User is logged in and on the correct page for: register.	The system perf	The system performs the action: register.	Pass
14	Open book details page	8	User is logged in and on the correct page for: open bo	The system perf	The system performs the action: open book details page.	Pass
15	Acceptable comment	19,22	User is logged in and on the correct page for: accepta	The system perf	The system performs the action: acceptable comment.	Pass
16	Unacceptable comment	19,20,21	User is logged in and on the correct page for: unaccep	The system perf	The system performs the action: unacceptable comment.	Pass
17	Add to Reading list	9	User is logged in and on the correct page for: add to r	The system perf	The system performs the action: add to reading list.	Pass
18	Mark as read	10	User is logged in and on the correct page for: mark as	The system perf	The system performs the action: mark as read.	Pass
19	Report Comment	16	User is logged in and on the correct page for: report c	The system perf	The system performs the action: report comment.	Pass
20	Explore Books	6	User is logged in and on the correct page for: explore	The system perf	The system performs the action: explore books.	Pass
21	Search for book (Catalogue)	7	User is logged in and on the correct page for: search f	The system perf	The system performs the action: search for book (catalogue).	Pass
22	Apply filter	7	User is logged in and on the correct page for: apply fil	The system perf	The system performs the action: apply filter.	Pass
23	View Profile	30	User is logged in and on the correct page for: view prc	The system perf	The system performs the action: view profile.	Pass
24	Update Profile	31	User is logged in and on the correct page for: update r	The system perf	The system performs the action: update profile.	Pass
25	Logout	36	User is logged in and on the correct page for: logout.	The system perf	The system performs the action: logout.	Pass
26	Add book (Admin)	45	User is logged in and on the correct page for: add boo	The system perf	The system performs the action: add book (admin).	Pass
27	Reviewing Reported Comments	49,50	User is logged in and on the correct page for: reviewin	The system perf	Error	Fail
28	Admin login with valid credentials	39	User is logged in and on the correct page for: admin lc	The system perf	The system performs the action: admin login with valid credentials.	Pass

#Test Case	Description	User Acceptance Criteria Covered	Precondition	Expected Result	Actual Result	Pass/Fail
1	Google login	2	User is logged in and on the correct page for: verify us	The system perf	The system performs the action: verify user can register using google loc	Pass
2	Apple login	3	User is logged in and on the correct page for: verify us	The system perf	The system performs the action: verify user can register using apple logii	Pass
3	Forgot password	5	User is logged in and on the correct page for: check fc	The system perf	The system performs the action: check forgot password functionality.	Pass
4	Verify user can open a book details page	8	User is logged in and on the correct page for: verify us	The system perf	The system performs the action: verify user can open a book details page	Pass
5	Dynamic average ratings	12	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the system displays the average r	Pass
6	Reply to existing comment	14	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the user can reply to an existing c	Pass
7	Like comments and replies	15	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the user can like comments and r	Pass
8	Reading progress percentage display	17	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the reading progress percentage i	Pass
9	Highlight text	23	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the user can highlight text.	Pass
10	Next and Previous navigation	26	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the next and previous navigation I	Pass
11	Number of books read is displayed	32	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the total number of books read is	Pass
12	User's most-read genres are displayed	33	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the user's most-read genres are d	Pass
13	User's reading streak is displayed	34	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the user's reading streak is displa	Pass
14	Continue Reading section is displayed	35	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the continue reading section is di	Pass
15	Take Subscription button	37	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the "take subscription" button red	Pass
16	User statistics displayed	41	User is logged in and on the correct page for: verify us	The system perf	The system performs the action: verify user statistics are displayed.	Pass
17	Reading statistics displayed	42	User is logged in and on the correct page for: verify re	The system perf	The system performs the action: verify reading statistics are displayed.	Pass
18	Revenue statistics displayed	43	User is logged in and on the correct page for: verify re	The system perf	The system performs the action: verify revenue statistics are displayed.	Pass
19	Top books and genres displayed	44	User is logged in and on the correct page for: verify to	The system perf	The system performs the action: verify top books and genres are displaye	Pass
20	Admin can add a book	45	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the admin can add a book.	Pass
21	Admin can remove a book	46	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the admin can remove a book.	Pass
22	Admin can edit book details	47	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the admin can edit book details.	Pass
23	Admin can search for booksl	48	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the admin can search for books ir	Pass
24	Accept a reported comment or reply	50	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the admin can accept a reported c	Pass
25	Reject a reported comment or reply	50	User is logged in and on the correct page for: verify th	The system perf	The system performs the action: verify the admin can reject a reported cc	Pass
